OPERATIONAL RISK DIAGNOSIS (KHS)

BY KEENA MOORE

Attendance Instability

- Attendance: **83%–93%**
- Tardies: **30–60 daily**
- Early dismissals: up to **22/day**

Impact:

- Loss of instructional time
  - Inconsistent data

SIS Data Integrity & Compliance

Evidence (from audit report)

- Missing/incomplete student records
- **Scheduling errors (students in incorrect/missing classes)**
- **Exit code errors (improper enrollment status)**

Why this is high leverage

- Impacts **student schedules + access to instruction**
- Creates **state reporting and compliance risk**
- Compromises **data used for decision-making**

Impact:

- Students in wrong or missing classes
- Audit findings / compliance violations
- Emergency/contact data may be inaccurate

"CORE PROBLEM: SYSTEM INCONSISTENCY IS REDUCING INSTRUCTIONAL TIME AND TRUST."

30-DAY EXECUTION PLAN

WEEK 1

Stabilize

- Daily attendance reconciliation (by 10 AM)
- Identify tardy root causes
- Audit Scheduling & SIS errors

WEEKS 2-3

Tighten Systems

Daily

- Same-day attendance corrections
- Align tardies to arrival flow

Weekly

- Trend analysis (attendance + tardies)
- Adjust arrival systems
- Conduct full SIS cleanup (scheduling + exit codes)

Monthly

- Run a full audit of attendance accuracy
- Review all SIS error categories:
- Scheduling errors, Exit code errors, Missing documentation

WEEK 4

Normalize

- Consistent attendance accuracy
- Reduced tardies
- Clear system alignment

*In addition to **attendance** and **transportation**, I prioritized SIS errors—particularly scheduling and exit code inaccuracies—because those directly impact student access to instruction and create immediate **compliance** risk.

ACCURACY, COMPLIANCE & FAMILY EXPERIENCE

DIRECT OWNERSHIP	EXECUTION SYSTEMS	FAMILY EXPERIENCE	COMPLIANCE
• Attendance systems • Arrival execution • Family comms • Compliance Data	***Data Accuracy*** • Same-day corrections • Daily dashboard ***Compliance*** • Audit-ready systems • Monitor early dismissals	• Proactive communication • 24-hour response standard • Clear expectations	**Weekly SIS audit (no backlog)** ***Resolve:*** • Missing documentation • Scheduling errors (course alignment) • Exit code errors (enrollment accuracy) ***Maintain*** audit-ready student records at all times

Escalation to Principal:

- **Vendor failures**
- **Policy decisions**
- **Family withdrawal risks**

EXECUTION METRICS

📊 **Attendance :** Goal: ≥90% consistently

⏰ **Tardies :** Baseline = 30–60 → declining by 25% in 30 days

📁 **Compliance :** 100% complete & accurate records

Ensure:

- 100% of students have complete records
- All schedules are accurate & aligned
- Exit codes are verified

"Certify" *SIS as audit-ready monthly*

📞 **Family Experience :** 100% responses within 24 hrs

"Operational consistency protects instructional time."
