Steve Hankins
Principal

December 2019

To whom it may concern,

I am writing to recommend Ms. Keena Moore for the Assistant Principal position that she is applying for in your District. As a colleague of Ms. Moore, I believe that she is extremely qualified to support your District in developing teachers and in helping students achieve more in the classroom. As an Assistant Principal at Marquette High School, Ms. Moore served 610 students and 20 teachers. Her positive attitude, collaborative leadership style, and passion for educating young adults were significant in changing the culture, making academic gains, and connecting to stakeholders at Marquette just as she did previously at Sumner and Riverview Gardens High Schools.

Ms. Moore is a strong instructional leader by knowing the components of effective classroom instruction. She worked with teachers to allow them to reflect on what should be taught, how it is taught, and how is it assessed. Ms. Moore knows that academic achievement can be improved through effective classroom instruction. She worked with Math teachers to create lessons that were applicable & relevant to the real world, problem based learning, and hands on collaborative learning. Ms. Moore supervised the Geometry in Construction class that applied the learning concepts in Geometry into construction projects led by students (Utility sheds, benches, and shelving).

Ms. Moore worked extremely hard in sparking and reorganizing the LOVE Project at Marquette High School. The LOVE Project is a program geared toward 9th & 10th grade young ladies to empower them to make positive academic & personal decisions, to develop the leader within themselves, and to allow the students to work effectively with others in a school environment. Ms. Moore connected with these young ladies and developed a strong rapport that helped transform a program into her passion. Ms. Moore challenged "Her Girls" not to be like her, but to be better than her.

It is my honor to recommend Ms. Keena Moore for the Assistant Principal position that she is applying for. Ms. Moore will exhibit outstanding leadership, visionary planning, concern and care for the students and parents that she will work with within your District.

Sincerely,

Carl B. Hudson
Assistant Principal
Marquette High School
